

The Putnam County Non-Food Pantry is a not-for-profit community outreach program serving the citizens of Putnam County. Our purpose is to distribute the many household **products that food stamps do not pay for**. We offer cooking and shopping tips, helping patrons learn how to best utilize their food stamps in buying nutritious food products. This is always to be done in a kind, neighborly and respectful way. By helping our fellow Putnam County citizens, we hope in some small way to support them through their time of need, letting them know there are people who care about them and their struggles in life.

We appreciate all the donations we receive. If we all work together, we can continue this much needed community outreach. **In addition to monetary donations, bring in any of these non-food pantry items:**

- Paper Products
 - Toilet Paper
 - Paper Towels
 - Kleenex
- Household Cleaners
 - Laundry Soap, Fabric Softener or Bleach
 - Ajax or Comet-type powders
